If nominating a tree not listed, identify the tree name on the "Other" line. Please submit the reasons why the tree was selected and how it contributes to a sustainable environment in Chicago. Feel free to include pictures or drawings of the trees.

Note: the most commonly occurring trees in Chicago are maple, honeylocust, and ash so try to avoid selecting these if possible. Ash is currently on the City's prohibited list for planting due to the destructive Emerald Ash Borer!

Thanks for participating and happy voting!
